FEATURED PROJECTS

OLASUBOMI-MD Bot • WhatsApp Multi-Device Bot

A feature-rich WhatsApp bot built with Node.js and the Baileys framework. Delivers 400+ commands covering group management, AI tools (OpenAI/Gemini), media downloaders, games, and automated replies — deployed on AWS EC2 and running 24/7 with PM2 process management.

Stack: Node.js · Baileys · MongoDB · AWS EC2 · PM2 🌐 github.com/olasubomi-png

Bot Deployment Dashboard • Cloud Dashboard

A web dashboard for managing multiple WhatsApp bot deployments — supports multi-account authentication, automated startup, and real-time monitoring of bots hosted on AWS infrastructure.

Stack: Express.js · MongoDB · Nginx · AWS EC2 🌐 github.com/olasubomi-png

AI Automation Platform • AI Tools

AI-powered automation workflows integrating OpenAI and Gemini APIs — intelligent chatbots, content generators, and data-processing pipelines built for real business use-cases.

Stack: Node.js · OpenAI API · Gemini · Webhooks 🌐 github.com/olasubomi-png

Developer Portfolio • Full-Stack Web App

Production-ready portfolio site with a Node.js/Express REST API (Helmet, CORS, rate limiting, input validation), a glassmorphism frontend, and CI/CD via GitHub Actions to AWS EC2.

Stack: HTML5 · CSS3 · JavaScript · Node.js · Express · Nginx 🌐 github.com/olasubomi-png
